

SCRUBS

CAMP

NOTHING INSPIRES LIKE HANDS-ON EXPERIENCE.

This was the best thing I've ever done. ... I feel more focused about my future goals and motivated to prepare for college.

2016 St. Cloud Scrubs Camper

It has made me realize that there are a lot more areas that a nursing student can go into than what I thought. It gave me a great insight to what I will be doing in the future.

2016 Mankato Scrubs Camper

SPRING/SUMMER 2016

2016
held tremendous growth with **19** events!

59% males

41% females

97% could see themselves in the STEM industry.

94% could see themselves at college.

SCRUBS

CAMP

Without the exposure to healthcare career pathways that Scrubs Camp provides, there are many students ... who would be left behind due to lack of knowledge on opportunities in healthcare; and our industry would be left behind in terms of pipeline of workers to fill our future career vacancies

Meghann Whiting, Workforce Planning & Sourcing Specialist, Essentia Health

With our region's needs in healthcare growing rapidly, this camp has allowed us to work collaboratively with our employer partners to create the next generation of healthcare workers in a fun and interactive way.

Shireen Alemadi, MSU Moorhead Community Outreach Coordinator

Started in 2008, Scrubs Camp provides a unique opportunity for middle school and high school students to explore careers in the health sciences. Our diverse population of campers includes many who are first-generation college bound and eligible for free/reduced lunch programs.

At Scrubs Camps students are exposed to a variety of learning experiences, from field trips to clinical settings to hands-on activities — like using the da Vinci surgical robot in training mode in a surgical room.

Pioneered by HealthForce Minnesota and designed in collaboration with Minnesota's public and private colleges and universities, K-12 educational systems, and leading healthcare employers, Scrubs Camps are setting the stage for students to start their educational journey to become the diverse workforce Minnesota will need tomorrow.

Camps would not be possible without the support of our partners:

- | | | |
